## CONTENTS VOLUME 64

Evidence for and implications of self-healing pulses of slip in earthquake rupture
T.H. Heaton (Pasadena, CA, U.S.A.) . . . . . 1
Magnetic hysteresis as a function of low temperature in rocks: evidence for internal stress control of remanence in multi-domain and pseudo single-domain magnetite
J.P. Hodych (St. John's, Nfld., Canada) . . . . . 21
Dynamical effects of a hard garnet layer in the transition zone on geophysical signatures: geoid anomalies and postglacial rebound
H.-J. Hong, D.A. Yuen and J. Wu (Minneapolis, Mn, U.S.A.) . . . . . 37
Estimation of scattering properties of lithosphere of Kamchatka based on Monte-Carlo simulation of record envelope of a near earthquake
I.R. Abubakirov and A.A. Gusev (Kamchatsky, U.S.S.R.) . . . . . 52
On the vertical gradient and associated heterogeneity in mantle electrical conductivity
A. Schultz (Seattle, WA, U.S.A.) . . . . . 68
Paleomagnetic tomography of the core-mantle boundary
R.T. Merrill (Seattle, WA, U.S.A.), P.L. McFadden (Canberra, A.C.T., Australia) and M.W. McElhinny (Fishing Points, NSW, Australia) . . . . . 87

*Book Reviews*
*Solitons: an Introduction* by. P.G. Drazin and R.S. Johnson—A.R. Osborne . . . . . 103
*Crystal Chemistry and Refractivity* by H.W. Jaffe—D.J. Vaughan . . . . . 104
*Catastrophic Episodes in Earth History* by C.C. Albritton Jr.—S.M. Cisowski . . . . . 105
*Tectonics of Suspect Terranes: Mountain Building and Continental Growth* by D.G. Howell—M.W. McElhinny . . . . . 106

*Guide for Authors* . . . . . 107

**Special Issue: Papers in Palaeomagnetism and Rock Magnetism Collected in Honour of the Late Daniel A. Valencio**
**Guest Editors: K.M. Creer, J. Urrutia Fucugauchi and J.F.A. Vilas**

*Contents* . . . . . v
*Preface* . . . . . vii

Palaeomagnetic data from Late Glacial glaciolacustrine sediments at Rio Corintos, Chubut, Argentina
L.A. Beraza and J.F.A. Vilas (Buenos Aires, Argentina) . . . . . 111
Palaeomagnetism of late Cenozoic fossiliferous sediments from Barranca de los Lobos (Buenos Aires Province, Argentina). The magnetic age of the South American land-mammal ages
M.J. Orgeira (Buenos Aires, Argentina) . . . . . 121
Models of geomagnetic secular variations on recent times for South America
A.M. Sinito (Buenos Aires, Argentina) . . . . . 133
Paleomagnetism of glacial varves from the last glaciation maximum in Patagonia at Lago Blanco
C.A. Sylwan (Stockholm, Sweden) . . . . . 143
Palaeomagnetism of the Mesozoic Serra Geral Formation, southern Brazil
M. Ernesto, I.G. Pacca, F.Y. Hiodo (São Paulo, Brazil) and A.J.R. Nardy (Rio Claro, Brazil) . . . . 153

Analysis of the paleomagnetism and rock magnetism of the Surco intrusion, Peru: an attempt to obtain a southern hemisphere reversal record
R.J. Weeks, J.R. Dunn, M. Fuller (Santa Barbara, CA, U.S.A.) and L. Quispesivana (Lima, Peru) . 176
Neotectonics in central Mexico
C.A. Johnson and C.G.A. Harrison (Miami, FL, U.S.A.) . . . . . 187
Palaeomagnetic results from the southern Sierra Madre Oriental, Mexico: evidence for Early Cretaceous or Laramide remagnetization?
H. Böhnel (Münster, F.R.G.), W.A. Gose, M.M. Testarmata (Austin, TX, U.S.A.) and G. Bocanegra Noriega (Mexico D.F., Mexico) . . . . . 211
Palaeomagnetic data from central Mexico and their use for palaeosecular variation studies
H. Böhnel, J. Urrutia Fucugauchi (Mexico D.F., Mexico) and E. Herrero-Bervera (Honolulu, HI, U.S.A.) . . . . . 224
Magnetostratigraphy of a Middle Jurassic red bed sequence from southern Mexico
J. Urrutia Fucugauchi, H.N. Böhnel (Mexico D.F., Mexico) and D.A. Valencio (Buenos Aires, Argentina) . . . . . 237
Palaeomagnetism of ocean layers 2 and 3: evidence from the Metchosin Complex, Vancouver Island
E. Irving and N.W.D. Massey (Sidney, B.C., Canada) . . . . . 247
On the intensity and stability of the natural remanent magnetization of ocean floor basalts
J. Housden and W. O'Reilly (Newcastle upon Tyne, U.K.) . . . . . 261
The Indian Ocean MAGSAT anomalies and strong geomagnetic field during Cretaceous 'quiet' zone
P.C. Pal (São Paulo, Brazil) . . . . . 279
The palaeomagnetic record of the Santiago volcanics (Republic of Cape Verde); multiphase magnetization and age consideration
M.C. Abranches, A. Serralheiro (Lisbon, Portugal), K.M. Storetvedt (Newcastle upon Tyne, U.K.) and R. Løvlie (Bergen, Norway) . . . . . 290
The palaeomagnetism of the Tumblagooda Sandstone, Western Australia: Gondwana palaeozoic apparent polar wandering
P.W. Schmidt and B.J.J. Embleton (North Ryde, N.S.W., Australia) . . . . . 303
Climatic and geomagnetic influences on the Lac du Bouchet palaeomagnetic SV record through the last 110 000 years
K.M. Creer, I. Blunk (Edinburgh, U.K.) and N. Thouveny (Marseille, France) . . . . . 314
Possible high-frequency geomagnetic polarity changes in Lower–Middle Jurassic carbonates in Iraq
B.R. Hijab and D.H. Tarling (Newcastle upon Tyne, U.K.) . . . . . 342
Mixed domain states of magnetic grains in basalts and implications for palaeomagnetism
C. Radhakrishnamurty (Bombay, India) . . . . . 348
Magnetic vs. structural fabrics, Whipple detachment structure, Whipple Wash, California
W.D. MacDonald (Binghamton, NY, U.S.A.) and B.B. Ellwood (Arlington, TX, U.S.A.) . . . . . 355
